

Story of Lisa

Lisa came to New Baltimore Family Dentistry in July of 2010. Lisa had more than a few dental problems as the initial pictures show

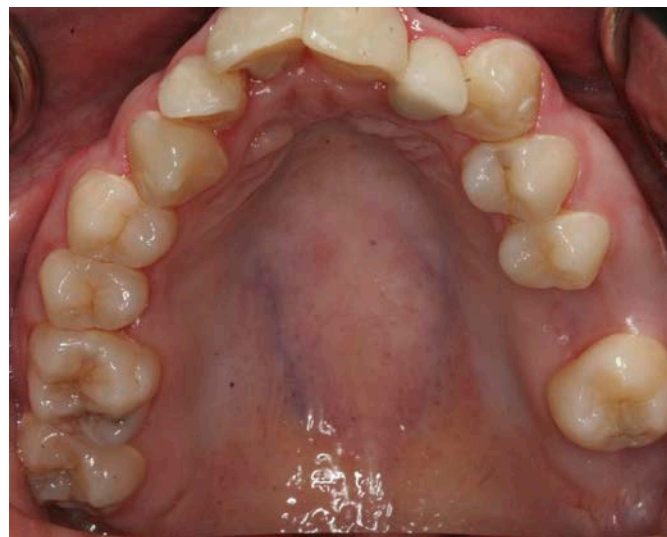

Lisa's upper and lower teeth

Before treatment

For the first few visits Lisa's teeth were cleaned, filled, and a few bad teeth were extracted

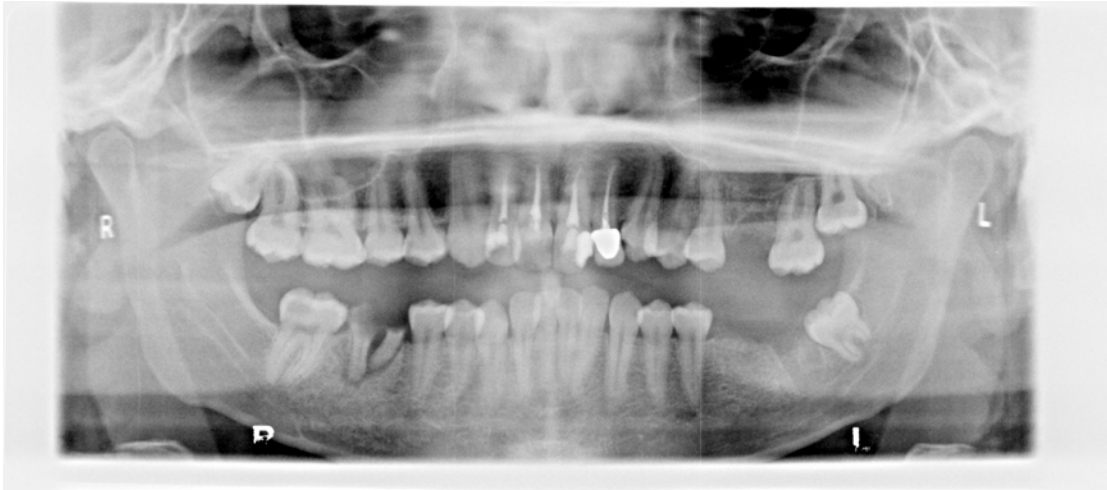

She was on her way to good health, and happy that she had committed to Orthodontic treatment.

After 18 months of orthodontic Treatment, Lisa's front teeth were correctly aligned

Later two implants were inserted to replace lost teeth

Crowns were placed to
enhance her appearance

Lisa's completed treatment

Lisa was very happy with the result after comprehensive treatment rendered by Dr Ali & staff at New Baltimore Family Dentistry.
